

Rainbow Treasure Hunt

What you need:

Adult supervision

Outside space

Recording sheet (shown opposite- either made using colouring pens or printed- document on class page)

Glue

What to do:

Using your 'Rainbow Treasure Hunt' sheet collect as many natural items as you can to match the colours on the sheet.

Stick them to your sheet with glue. Have an adult to supervise and help with any tricky parts. Can you name the objects and talk about what they are like? Which object is your favourite one and why?

What it is good for:

Fine and gross motor skills, speaking and listening, following instructions, independence, nature appreciation.
