

EARLY YEARS DEVELOPMENT TARGETS

2024-2025

- 1 To build links and relationships with a diverse range of settings, in order to build staff experience and support pupils' learning experience.
- 2 To support pupil progress by making improvements to our Maths curriculum offer, by developing provision, teaching and staff understanding.
- 3 To develop pupils' awe and wonder of the world around them, providing new experiences, interactions and play opportunities which help our learners to become educated citizens.
