

DEVELOPMENT TARGETS

NUMERACY

2024-2025

- 1 Develop links with schools and nurseries to support subject knowledge and pedagogy- especially for Early Maths and our less able Mathematicians.
- 2 Further implement and cascade strategies and concepts taken from NCETM training.
- 3 Develop a standard Maths vocabulary for the school, which links to the Maths progression-mapping document, to ensure consistency between year groups. Encourage Oracy in Maths.
